Lawn Care

Aerators

Tow-Behind Aerator Spreader 102cm (40")

JD Part Number: CPLPAS40JD

Compatibility: Compatible with most mowers with a hitch pin

- Powder Coated 20cm Steel Tine Stars - 132 steel tine tips, 20cm Dia stars; Up to 5cm penetration depth, 102cm working width.
- Hopper - Made from heavy-duty 18 gauge all welded steel to prevent twisting and flexing. 0.05m³ capacity.
- Calibrated Flow Control - With adjustable stop features
- Differential Direct Chain Drive - To prevent skips.
- Built Tough - Extra heavy-duty, 1/4" diameter tubular steel framing and drawbars.

[Parts Breakdown Available](#)

Tow Plug Aerator 102cm (40")

JD Part Number: CPLPPA40JD

Compatibility: Compatible with most mowers with a hitch pin

Aeration helps keep the grass vibrant and healthy.

- Carburized steel tines penetrate the lawn removing up to 8cm plugs of soil.
- Plug openings let water, seed and nutrients reach the lawn's root system and encourage the roots to spread and thicken for a fuller, lusher, healthier lawn.
- 28 plugging spoons are heat-treated for strength and durability.
- Weights added to the fully enclosed tray let you increase the penetration depth.

[Parts Breakdown Available](#)

Tow-Behind Spike Aerator 102cm (40")

JD Part Number: CPLPSAT40JD

Compatibility: Compatible with most mowers with a hitch pin

Weight Tray Capacity: 45kg

- Powder Coated steel tine stars are built tough.
- Fully enclosed weight tray provides the most flexibility for adding various types of weights; sized for concrete cinder blocks.
- 45kg weight tray capacity (sized for 2 concrete blocks).
- Eleven (11) 20cm diameter galvanized tine stars; 132 tips.
- Transport wheels allow passage over paved areas, and can be engaged without leaving your seat.

[Parts Breakdown Available](#)

Tow Plug Aerator 122cm (48")

JD Part Number: CPLPPA48JD

Compatibility: Compatible with most mowers with a hitch pin

Aeration helps keep the grass vibrant and healthy.

- Carburized steel tines penetrate the lawn removing up to 7.6cm plugs of soil. Plug openings let water, seed and nutrients reach the lawn's root systems and encourage the roots to spread and thicken for a fuller, lusher, healthier lawn.
- 48 plugging spoons are heat-treated for strength and durability.
- Weights added to the fully enclosed tray let you increase the penetration depth.

De-thatchers

Multi Tool Plugger/Dethatcher 102cm (40")

JD Part Number: CPLP39089

Compatibility: Compatible with most mowers with a hitch pin

Save space, storage, and money! Two great tools take up the space of one saving storage space. Interchangeable dethatcher and plug aerator saves money. Single handle attachment makes for quick changes between dethatching and aerating your lawn. Large smooth rolling pneumatic tyres provide easy towing behind lawn tractor.

- Includes the 102cm platform with wheels, plug aerator and tine dethatcher
- Platform holds up to 45kg for increased soil penetration
- Plug aerator has 24 coring points which pull up to a 7.6cm (3") plug from a compacted lawn
- Dethatcher has 10 heat-treated double-pronged spring tines to lift and loosen up a heavily matted lawn
- Durable steel deck
- Universal hitch attached to any tractor quickly and easily
- Easy standup storage capability

Z500 ZTrak Front Mount Z-Thatcher

JD Part Number: CPLP83252

Compatibility: Z500 Series ZTrak™ Mowers

The Z500 Series ZTrak Front Mount Z-Thatcher™ can be used on a regular basis, reduces excessive thatch buildup that can be damaging to a lawn's health.

Since it provides more gentle, less aggressive action than a power rake, it can be used as a preventative maintenance tool each time the lawn is mowed.

De-thatchers

Thatcher Mounting Frame for X700

JD Part Number: CPLP47977

Compatibility: X700 Series Tractors

Front Thatcher Mounting Frame for X700 Series tractors. The frame is compatible with all X700 Series tractors.

Thatchers can perform a variety of tasks around the yard:

- Enables thatch maintenance; helps to set up grass for better, more uniform mowing, especially in matted grass areas.
- Prepares the ground for seeding.
- Allows controlling thatch by combining the thatcher, mower, and bagging or sweeper system in one operation.

De-thatcher for Sweeper 107cm (42")

JD Part Number: CPLP42108

Compatibility: CPLPSTS42JD Lawn Sweeper

This John Deere De-thatcher Kit has two rows of individually flexing tines that gently but effectively remove grass clippings, leaves, and other lawn debris from your lawn. The kit easily attaches to the front of John Deere's 107cm Lawn Sweeper (Item# CPLPSTS42JD) to add thatch pickup to your sweeper's cleaning abilities.

The dethatcher does not need to be removed to resume regular sweeping use.

[Parts Breakdown Available](#)

Tow-Behind Thatcherator 102cm (40")

JD Part Number: CPLPTA40JD

Compatibility: Compatible with most mowers with a hitch pin

Weight Tray Capacity: 45kg

The CPLPTA40JD, more commonly known as the Thatcherator, is built with an 11 gauge steel weight tray for adding up to 45kg of additional weight. With 20 oil-tempered spring tines and both dethatch and scarify modes, the Thatcherator is built for the job.

In transport mode, the diamond-tread wheels allow for crossing paved areas without damaging the tines or scratching the pavement. Tines come pre-assembled to the tray to decrease assembly time and are secured via safety wires to prevent damage to mower blades in the event of a breakage.

[Parts Breakdown Available](#)

De-thatchers

Front Thatcher 96.5cm (38")

JD Part Number: CPLP48004

Compatibility: X300 Series; X400 Series; X500 Series & X700 Series*

The Thatcher, used on a regular basis, reduces excessive thatch build-up that can be damaging to a lawn's health. Since it provides more gentle, less aggressive action than a power rake, it can be used as a preventative maintenance tool each time the lawn is mowed.

***Mounting hardware required**

Thatcher Mounting Frame X300/X500

JD Part Number: CPLP48005

Compatibility: CPLP48004 Front Thatcher

Heavy-duty mounting frame for Front Thatcher CPLP48004.

Tine Tray Extension Kit 20cm (8")

JD Part Number: CPLP48003

Compatibility: CPLP48004 Front Thatcher

This 20cm extension kit fits Front Thatcher CPLP48004.

The heavy duty metal frame and 2 additional sets of dual-tine tips increase the width of the Front Thatcher, increasing productivity and requiring fewer passes.

Broom Dethatcher Attachment

JD Part Number: BUC11756

Compatibility: 52" Brooms

Groomers

Grass Groomer-42 Accel-X300

JD Part Number: CPLP63762

Compatibility: X330, X350, X354, X370

Grass Groomers™: The Professional Lawn-Striping Solution

Contrasting striping patterns in a lawn can easily enhance the appearance of a home or business. If you're in search of an even more professional-looking lawn, Grass Groomers are the perfect solution.

Grass Groomers use bristles to gently bend grass blades further than a mower deck does by itself. The result is an intensified striping-effect because the blades now reflect light at a greater angle. These bristles are flexible to accommodate varying ground heights and avoid scalping or berming when making turns. Additionally, their strong, yet lightweight design ensures that ground compaction is unchanged.

- Durable, flexible bristles - intensify lawn striping and accommodate varying ground heights for a professional appearance.
- Strong, lightweight design - steel mounting brackets are paired with the bristles to provide a long-lasting design that's also lightweight to minimise unnecessary ground compaction.
- Simple installation - only basic hand tools are needed to attach the mounting brackets specifically made for each deck. No drilling is required.
- Easy height adjustments - set height in seconds with two screw knobs.

[Parts Breakdown Available](#)

Grass Groomer-42 Accel-Z300

JD Part Number: CPLP63763

Compatibility: Z355E, Z335M, Z345M, Z345R

Grass Groomers™: The Professional Lawn-Striping Solution

Mulching

Mulching Attachment Kit for 152cm (60") Mower Decks

JD Part Number: TCB10953

Compatibility: 1023E, 1025R, 1026R, X465, Z520A, Z915B, Z915E, Z920A, Z920M, Z925M EFI, Z925M EFI Flex Fuel, Z930A, Z930M, Z930M EFI, Z930R, Z950A, Z950M, Z950R, Z960A, Z960M, Z960R, Z970R

The mulching attachment kit for the 152cm (60") 7-Iron, 7-Iron II and 7-Iron Pro Mower Decks provides excellent performance. This is a high-performance mulching attachment that includes a mulch plug and special mulching blades. Advantages of mulching grass clippings include a beautiful looking yard, reduced debris in unwanted areas, less fertiliser use required and elimination of need to disposed of clippings.

Mulching Attachment Kit for 152cm (60") Mower Decks

JD Part Number: BM23978

Compatibility: 1023E, 1026R, 3033R, 3033R, 3039R, 3039R, 3046R, X710, X730, X734, X738, X739, X750, X754, X758, Z540R, Z665

Fits 60HC Mower Decks. The mulching attachment for the 152cm (60") High Capacity (60 HC) Mower Deck provides excellent performance. This is a high-performance mulching attachment that includes steel baffles and special mulching blades. Advantages of mulching grass clippings include a beautiful looking yard, reduced debris in unwanted areas, less fertiliser use required and elimination of need to dispose of clippings.

MulchControl Attachment Kit for 42A Mower Decks

JD Part Number: BUC10704

Compatibility: X330, X350, X354, X370, Z335E, Z335M, Z345M, Z345R

The MulchControl attachment for the 42A Mower Deck makes mulching more practical for many mowing situations because it not only does an excellent job of mulching but it also allows the mower to be easily converted for times when it is more desirable to side discharge or collect the lawn material.

Mulch Kit for Rear Discharge Mowers

JD Part Number: BG20560

Compatibility: X155R, X166R

Mulch Kit (mulch plug & mulch blades) for 107cm (42") Rear Discharge. The finer mulching produces means that clippings will decompose quickly, provide nutrients to the lawn and help keep moisture in the ground.

Mulch Kit for Rear Discharge Mowers

JD Part Number: BG20698

Compatibility: X115R, X116R, X117R, X135R, X146R, X147R

Mulch Kit (mulch plug & mulch blades) for 91cm (36") Rear Discharge. The finer mulching produces means that clippings will decompose quickly, provide nutrients to the lawn and help keep moisture in the ground.

Mulching

Mulch Kit for Rear Discharge Mowers

JD Part Number: BM25257

Compatibility: X350R

Mulch Kit (mulch plug & mulch blades) for 107 cm (42") Rear Discharge. The finer mulching produces means that clippings will decompose quickly, provide nutrients to the lawn and help keep moisture in the ground.

Mulching Attachment

JD Part Number: BM21816

Compatibility: 102, 115, 125, 135, D100, D105, D110, D120, D125, D130, E100, E110, E120, E130, LA100, LA105, LA110, LA115, LA120, LA125, LA135, LT160, LT180, S100, S110, S120, S130, S240, SST15, SST16, X105, X106, X107, X110, X120, X126, X300, X304, X310, X500, X520, Z225, Z235

The mulching attachment for the 107cm (42-in.) Mower Deck provides excellent performance. This is a high-performance mulching attachment that includes a mulch plug and special mulching blades. The blades included are designed to work with the StarLock™ blade mounting system used on the 107cm (42-in.)

Mulch Kit for Side Discharge Mowers

JD Part Number: BUC10705

Compatibility: S240, X350, X370, X380, X384, X390, X394, X570, X580, X584, X590, X710, X730, Z355E, Z355R, Z525E, Z535M, Z540M

MulchControl™ for 122 cm (48") Accel Deep™ (48A) Mower Deck. The finer mulching produces means that clippings will decompose quickly, provide nutrients to the lawn and help keep moisture in the ground.

Mulch Kit for Side Discharge Mowers

JD Part Number: BUC10706

Compatibility: Various, see Parts Advisor for more information

MulchControl™ for 137 cm (54") Accel Deep™ Mower Deck. The finer mulching produces means that clippings will decompose quickly, provide nutrients to the lawn and help keep moisture in the ground.

Mulch Kit for Zero Turn Mowers

JD Part Number: BM23975

Compatibility: Z540R, Z545R

Mulch Kit (mulch blades & deflector) for 48HC deck. The finer mulching produces means that clippings will decompose quickly, provide nutrients to the lawn and help keep moisture in the ground.

Mulching

MulchControl™ Kit

JD Part Number: Various, see below

Compatibility: See compatibility information below

Quickly convert between mulching and side-discharging. Depending on the kit, a MulchControl handle or one-touch electric switch is used to open and close the discharge baffle.

For 137 cm (54 in.) HC mower on Residential ZTrak and Signature Series BM26300

For 152 cm (60 in.) HC mower on Residential ZTrak and Signature Series BM25258

Mulch Kit For 137cm (54") HC Mower on X700 Series

JD Part Number: BM23977

Compatibility: For 137 cm (54") HC mower on X700 Series

The mulch kit creates individual cutting chambers for precise grass or leaf mulching. Kit includes a mulch plug and high-performance mulching blades.

Mulch Kit for For 48C/48X

JD Part Number: BM20007

Compatibility: 48C/48X

The mulch kit creates individual cutting chambers for precise grass or leaf mulching. Kit includes a mulch plug and high-performance mulching blades.

Mulch Kit for 157cm (62") Mower on Z535M and Z540M

JD Part Number: BM21890

Compatibility: For 157 cm (62") mower on Z535M and Z540M

The mulch kit creates individual cutting chambers for precise grass or leaf mulching. Kit includes a mulch plug and high-performance mulching blades.

Mulch Kit for 54 HC

JD Part Number: BUC11270

Compatibility: 54HC

These mulching attachments are designed for the high-capacity mower decks. This design requires no drilling for initial mounting, less installation time, and reduced hardware count for easy removal of the mulching components.

Steel baffles control material and close off the discharge area. Special mulching blades are included to optimise mulching performance. These blades can also be used for side-discharging or material collection (if a material collection system is available), though performance may be reduced in some conditions.

Mulching

Mulch Kit for 60 HC

JD Part Number: BUC11190

Compatibility: 60HC

These mulching attachments are designed for the high-capacity mower decks. This design requires no drilling for initial mounting, less installation time, and reduced hardware count for easy removal of the mulching components.

Steel baffles control material and close off the discharge area. Special mulching blades are included to optimize mulching performance. These blades can also be used for side-discharging or material collection (if a material collection system is available), though performance may be reduced in some conditions.

Mulch Attachment for 54C/54D/54X Mowers

JD Part Number: BM20827

Compatibility: 54C/54D/54X

The mulching attachment for 54C/54D/54X Mowers controls the flow of grass clippings during the mulching process to provide excellent performance. The mulch plug is made up of two halves. Most side-discharge and material collection jobs can be done by only removing the right half, leaving the left half in place.

Mulch Attachment for 97cm (38") Mower

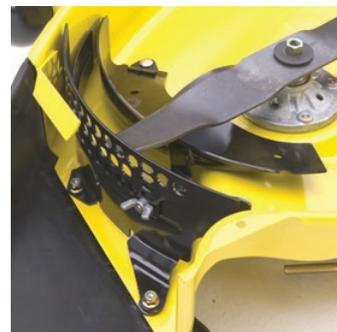

JD Part Number: BM21817

Compatibility: For two-spindle 97cm (38") Mowers

The mulching attachment allows converting the mower so it can be used to mulch grass or leaves. The attachment consists of special mulching blade(s), a deflector ramp to direct the clippings into the blade for re-cutting, and a discharge closure plate with adjustable baffle.

Features include:

- The blades included are designed to work with the StarLock™ blade mounting system used on 97cm (38") Mowers for X300 Series Tractors and also for the 97cm (38") Mower without StarLock used on LT Series Tractors.
- The special mulching blades included can also be used for side discharging, though overall cut quality may decline slightly.

Mulch Attachment for RLE Equipment

JD Part Number: BG20304

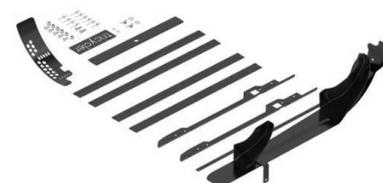

Compatibility: D170, E180, G110, 190C (100 Series), LA150, LA175 Tractors

Mulch Attachment for RLE Equipment

JD Part Number: BM17869

Compatibility: F725, 325, 335, 345, 355D, and 122cm (48"), 137cm (54") and 152cm (60") Mower Decks for F620, F680 and F687

Mulching

Tri-Cycler 76cm (30") Mulching Kit

JD Part Number: BM17920

Compatibility: 108, 111, 111H, 112L, 130, 160, 165, RX63, RX73, RX75, RX95, SX75, SX85, SX95, STX30, STX38, SRX75, SRX95, GX70, GX75, GX85, GX95 Mowers/Tractors

JOHN DEERE

Tri-Cycler 122cm (48") Deck Mulching Kit

JD Part Number: BM19918

Compatibility: 180, 240, 245, 260, 265, 285, 320, 325, 335, 345, F510, F525, LX172, LX173, LX176, LX178, LX186, LX188, GT235, GT235E, GT242, GT262, GT275, SABRE 1842GV, 1842HV, 1848GV, 1848HV, 1948GV, 1948HV, 2048HV, 2148HV, S2348, GX325, GX335, GX345, LX28 Mowers/Tractors

Mulching Attachment Kit

JD Part Number: BM20008

Compatibility: GX325, GX335, GX345, GX355, LX280, X324 Lawn Tractors

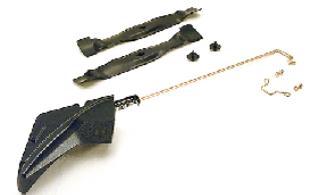

107cm (42") Rear-Discharge Mulch Plug Attachment

JD Part Number: BM20686

Compatibility: LTR155, LTR166, and LTR180

When collecting grass clippings and leaves is not desired, a mulch plug and mulching blades are available.

The rear hopper, mulch plug, or garden caddy rear deflector can be easily removed and the mulch plug installed. The mulching blades will also provide excellent performance when used with the rear-discharge deflector and good performance for collecting. If collecting in heavy or wet conditions, it may be necessary to reinstall the standard bagging blades for optimum performance.

Mulching Kit

JD Part Number: BM22326

Compatibility: X300R, X350R Series Lawn Tractors

JOHN DEERE

157cm (62") Rear Discharge Mulch Kit

JD Part Number: BTC10545

Compatibility: 1550, 1570, 1575, 1580, 1585 Series Front Mowers

152cm (60") Grass Mulching Kit

JD Part Number: BTC10669

Compatibility: 1550, 1570, 1575, 1580, 1585 Series Front Mowers

Mulching

183cm (72") Grass Mulching Kit

JD Part Number: BTC10670

Compatibility: 1550, 1570, 1575, 1580, 1585 Mowers with 152cm (60"), 157cm (62") or 182cm (72") Decks.

122cm (48") Mulching Control Kit

JD Part Number: BUC10249

Compatibility: Z720E, Z735M, Z740R ZTrak Mowers.

Hydraulic MulchControl™ Actuator Attachment

JD Part Number: BUC11635

Compatibility: Hydraulic MulchControl actuator attachment for MulchControl on 137cm (54") and 152cm (60") HC Mower Decks.

This attachment gives the operator from-the-seat control of the MulchControl baffle with the tractor's hydraulic lever. A mower deck equipped with the hydraulic MulchControl actuator option not only does an excellent job of mowing and mulching, but it can also be quickly converted to side discharge or mulch mode with the touch of the hydraulic control lever.

152cm (60") MulchControl™ Kit

JD Part Number: BUC10595

Compatibility: For Z700s and model year 2021 and newer Z530R and Z545R.

The MulchControl™ attachment for the 152cm (60-in.) HC Mower Deck makes mulching more practical for many mowing situations because it not only does an excellent job of mulching, but it also allows the mower to be easily converted for times when it is more desirable to side discharge or collect the lawn material.

Advantages of mulching grass clippings include:

- A beautiful looking lawn
- Grass clippings not blown onto the operator, driveways, or flower beds
- Less fertiliser use
- Elimination of the effort needed to dispose of clippings

107cm Mulching Attachment

JD Part Number: BM21816

Compatibility: For Z700

The mulching attachment for the 107cm (42-in.) Mower Deck provides excellent performance.

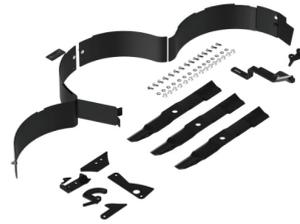

Mulching

137cm (54") Mulching Control Kit

JD Part Number: BUC10596

Compatibility: Z720E, Z730M, Z735M, Z740R ZTrak Mowers.

152cm (60") Grass Mulching Kit

JD Part Number: BUC10892

Compatibility: Z515E, Z530M ZTrak Mowers.

152cm (60") Rear Discharge Fastback Pro Deck Mulch Attachment

JD Part Number: BUC11932

Compatibility: Z930M, Z950R, Z955M, Z955R, Z994R, Z997R ZTrak Mowers.

MulchControl™ System for 107cm (42") Accel Deep™ (42A) Mower Deck

JD Part Number: BUC11053

Compatibility: S220 and model year 2021 and newer S240 Tractors equipped with a 42-in. (107-cm) Accel Deep (42A) Mower Deck.

The MulchControl™ system makes mulching more practical for many mowing situations. It does an excellent job of mulching and allows the mower to be easily converted for times when it is more desirable to side discharge or collect the lawn material.

Advantages of mulching grass clippings include:

- Creates a beautiful looking lawn
- Smaller grass clippings disappear into the lawn canopy
- Reduces fertiliser needs
- Grass clippings are not blown onto the operator, driveways, or flower beds
- No need to dispose of bags of clippings

Mulching

MulchControl™ Attachment for 137cm (54") HC Mower Deck

JD Part Number: BUC11271

Compatibility: For model year 2021 and newer Z530R and Z545R.

The MulchControl attachment for the 137cm HC Mower Deck makes mulching more practical for many mowing situations because it not only does an excellent job of mulching, but it also allows the mower to be easily converted for times when it is more desirable to side discharge or collect the lawn material.

Advantages of mulching grass clippings include:

- A beautiful looking lawn
- Grass clippings not blown onto the operator, driveways, or flower beds
- Less fertiliser use
- Elimination of the effort needed to dispose of clippings

Grass Mulching Kit

JD Part Number: BUC11229

Compatibility: 1600 Turbo Series II and III Wide Area Mowers.

Replaces BUC10130.

183cm (72") Rear Discharge Mulch Kit

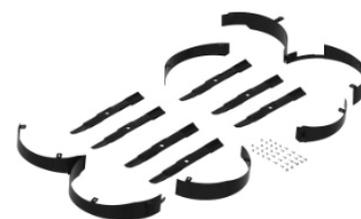

JD Part Number: DMB210099

Compatibility: 1580 Mowers with 62 and 72-inch Rear Discharge Decks

Grass Mulching Attachment

JD Part Number: DMB210319

Compatibility: 1505, 1515 Professional Lawnmowers

Mulching

Grass Mulching Attachment

JD Part Number: SAB00733

Compatibility: 92-13HB, 92-13HF, LR135, LR135F Lawn Tractors

183cm (72") Tricycler Mulching Attachment

JD Part Number: TCB10951

Compatibility: 92-13HB, 92-13HF, LR135, LR135F Lawn Tractors

The mulching attachment converts mowers with side-discharge mower decks to perform mulching functions (grass or leaves).

Mulching kits consist of special mulching blades, a deflector ramp to direct the clippings into the blade for re-cutting, and a discharge closure with adjustable baffles. The adjustable baffle can be moved to one of five positions to match conditions using the convenient wing nuts.

Only compatible with side-discharge mower decks.

122cm (48") Grass Mulch Kit

JD Part Number: TCB10952

Compatibility: 717 Mini-Frame, 717A Mini-Frame, Z7510A, Z710A, Z810A, Z820A, Z910A, Z915B, Z915E, Z920A, Z920M, Z920R ZTrak Mowers.

137cm (54") Grass Mulching Kit

JD Part Number: TCB11469

Compatibility: 727A Mini-Frame, 737, 757, Z445, Z520A, Z710A, Z810A, Z820A, Z830A, Z840A, Z910A, Z915B, Z915E, Z920A, Z920M, Z920R, Z925A, Z925M, Z930M, Z930R, Z950R, Z994R ZTrak Mowers.

Mulching

54C/54X Leaf Mulcher (Bagging Kit)

JD Part Number: BM20985

Compatibility: GX255, GX325, GX335, GX345, GX355, LX280, X320, X340, X360, X500, X520, X534, X540, X590, Z425, Z445 Mowers.

Leaf bagging kit for the 54C Mowers and the 137cm (54") Edge™ Xtra Mowers reduce leaf blowout when using a Power Flow™ blower to collect leaves.

Leaf bagging kits can also be used to reduce blowout when mowing dry grass; however, they should be removed when mowing higher-moisture grass. They must be removed before a mulching attachment can be installed.

Each kit includes a left front, right front, and left side baffle and attaching hardware.

62C/62X Leaf Mulcher (Bagging Kit)

JD Part Number: BM20986

Compatibility: GX255, GX325, GX335, GX345, GX355, LX280, X320, X340, X360, X500, X520, X534, X540, X590, Z425, Z445 Mowers.

Leaf bagging kit for the 62C Mowers and the 137cm (62") Edge™ Xtra Mowers reduce leaf blowout when using a Power Flow™ blower to collect leaves.

Leaf bagging kits can also be used to reduce blowout when mowing dry grass; however, they should be removed when mowing higher-moisture grass. They must be removed before a mulching attachment can be installed.

Each kit includes a left front, right front, and left side baffle and attaching hardware.

107cm (42") Mulch Cover Kit

JD Part Number: GY00115

Compatibility: 102, 105, 107, 108, 115, 125, 135, 1442, 1542, 1542GS, 1542HS, 1642HS, 1642HV, 1742GS, 1742HS, 1742PR, D100, D105, D110, D120, D125, D130, E100, E110, E120, E130, L17.542, L100, L105, L107, L108, L110, L111, L118, L1742, LA100, LA105, LA110, LA115, LA120, LA125, LA135, S100, S110, S120, S130, S240, S1642, S1742, X105, X106, X107, X110, X120, X125, X126, X145, X300, X304, X310 Mowers.

Mulching is a great way to provide nutrients to your yard, eliminate yard waste disposal, and reduce mowing time. Using a mulch kit helps produce finer grass clippings that drop to your yard for quicker decomposition. This returns nutrients back to the ground and can help reduce the amount of watering required. It also eliminates the need to rake or to stop mowing to empty bags. **GY00115 replaces GY20173**

122cm (48") Mulch Cover Kit

JD Part Number: GY20417

Compatibility: 145, 155C, 1948GV, 1948HV, 2148HV, D140, D150, D155, D160, E140, E150, E160, E170, L120, L130, L2048, L2548, LA130, LA140, LA145, LA155, LA165, S140, S160, S170, X140, X165, X166, X167, Z245, Z255, Z355E Mowers.

Mulch Cover For Use On 48X Mower Decks.

Rollers

Tow Roller

JD Part Number: CPLPRT36JD

Dimensions: 46cm Diameter x 92cm Working Width

Weight: 177kg when filled with water (159L)

Use the lawn roller to pack down new sod, seed, and unlevel ground. The polyethylene rollers are easy to fill, empty and store and they won't dent or rust.

Sprayers

Precision Boom-DLX Sprayers

JD Part Number: CPLP22885

Compatibility: DLX Sprayers

The 3.81m Precision Boom is compatible with Deluxe Sprayers. This folding boom is made to cover ground quickly and thoroughly with 5 precision spray tips, TeeJet nozzle bodies and commercial grade diaphragm check valves. The outer tips offer versatility with built-in shut offs to allow an adjustable 0.76m, 2.28m or 3.81m spray swath.

- Folding spring hinge.
- Breakaway design.
- 5 TeeJet tips and nozzle bodies.
- Adjustable spray swath (0.76m, 2.28m or 3.81m).
- 1.27cm (1/2") Industrial grade rubber hose.
- This item is Boom Only, it does not include vehicle mounting brackets as they are sold with the HP Sprayer.

Click-N-Go Sprayer

JD Part Number: CPLP22862

Tank Size: 94L

Compatibility: X710, X730, X734, X738, X739, X750, X754, X758

Tractor-mounted sprayers are perfect for spraying residential and small commercial properties. These durable sprayers are designed to offer flexibility to apply various liquids in a variety of different ways. Additionally, having an attachment system that's designed specifically for the tractor provides excellent stability and manoeuvrability.

The 94L Click-N-Go sprayer features a 1.5 m folding boom that applies a 2.3 m swath. Also included is an adjustable brass-tip hand wand attached to 5.8 m of hose that's ideal for spot spraying lawns or spraying trees up to 9.1m high. Durable components, like the 2.2 GPM commercial-grade pump and a powder-coated steel frame, offer superior durability. The Click-N-Go brackets make attachment, detachment, and backing up easy, ensuring that every centimetre of a property is sprayed properly.

Tow-Behind Sprayers

JD Part Number: CPLP19478, CPLP19479, CPLP20485

Tank Size: Various (see table below)

- 100 psi, 2.2 gpm Remco diaphragm-type pump is designed for high hour commercial applications. It can be run dry without damage.
- The fully adjustable brass spray wand tip achieves streams up to 9m.
- Recirculation keeps material mixed and moving.
- Equipped with a 5.8m hose to hand spray wand.
- Check valves in boom tips prevent siphoning and dripping, which can cause lawn spotting.
- Two-wire fused wiring harness complete with quick-disconnects for convenient electrical hookup.
- Control valve directs spray to either the boom or spray wand.
- Rugged translucent yellow tank with molded fill level indicators (in gallons).
- Built in supports for convenient vertical storage.

Spreaders

Tow Spreader

JD Part Number: CPLP39087

Capacity: 59Kg

- Perfect for broadcasting fertiliser, weed control, grass seed, or ice melt
- 59kg capacity polyethylene hopper that resists rust and cleans up easily
- Commercial grade gear box - specifically engineered to prevent corrosion
- Pneumatic tyres are large and roll over lawn
- Spread pattern of up to 366cm (12 ft) depending on travel speed and material used
- Universal tow hitch attached to any tractor quickly and easily
- Optional deflector and spreader grate available

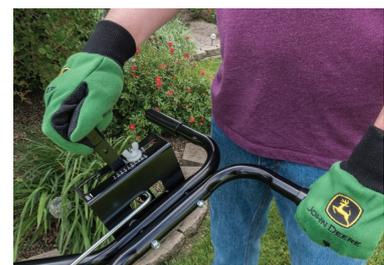

Push Spreader

JD Part Number: CPLP67699

Capacity: 59kg

- This 59kg push spreader is perfect for broadcasting fertiliser, weed control, grass seed, or ice melt product
- Adjustable flow control helps release the desired amount of product where you need it
- Commercial grade gear box specifically engineered to prevent corrosion
- Pneumatic tyres are large and roll easily over lawn
- Polyethylene hopper resists rust and is easy to clean
- The spread pattern will go up to 366cm (12 ft) depending on speed and material
- Direct rod control with convenient handle opens and closes the material gate
- Heat-treated steel gears with a plastic enclosure to protect from corrosive material

Spreaders

Pro Tow Spreader

JD Part Number: CPLP79931 (Replaces CPLP25353)

Capacity: 68Kg

John Deere spreaders are excellent for year-round use. Spreads seed, fertiliser, and more.

Features & Benefits

- Professional landscaper design product
- 68Kg capacity; durable poly hopper
- Fully enclosed gear box with metal gears for long life
- Works on hitch heights above or below 9" with indexable tow-tube
- 38cm x 15cm Turf Saver tyres for easy rolling
- Positive on/off system (no cables)
- Easy to reach handle from seat of tractor
- 95 calibration intervals
- Accu-Way™ even spread pattern adjustment
- Includes screen and cover

Pro Tow Spreader

JD Part Number: CPLP79932 (Replaces CPLP25354)

Capacity: 90kg

A tow-behind spreader for year-round use to spread seed, fertiliser, and more.

Features & Benefits

- Professional landscaper design product
- 90kg capacity; durable poly hopper
- Fully enclosed gear box with metal gears for long life
- Works on hitch heights above or below 9" with indexable tow-tube
- 15 x 6.00 6 Turf Saver tyres
- Positive on/off system (no cables)
- Easy to reach handle from seat of tractor
- 95 calibration intervals
- Accu-Way™ even spread pattern adjustment
- Includes screen and cover

Tow Broadcast Spreader

JD Part Number: CPLPBS36JD

Capacity: 80Kg

ROBUST DESIGN, BUILT FOR RELIABILITY! Long steel handle for quick and easy opening/closing. Robust steel rod for opening/closing; locks securely for smooth, consistent flow. Stainless steel hardware; eliminates rust and corrosion inside hopper. Clearly visible calibration instruction label. Enclosed gearbox eliminates maintenance.

Directional Flow Control adjusts spread pattern away from walks, driveways and flowerbeds. Large 0.99cm³, 80Kg capacity polypropylene hopper. Convenient Autoflow™ feature stops material from spreading when tractor stops. Tubeless pneumatic tires provide easier rolling.

Pro Electric Spreader

JD Part Number: CPLP35439

Capacity: 57kg

Compatibility: X300/X500/X700 Series Tractors (Not compatible with the X300R). X700 Series requires a click and go bracket. X300 Tractors require use of front wheel weight kit or front weight bracket kit with ballast. Not compatible with the 3-point hitch, weather enclosure, cabs or rear receiver hitch when used on X700 Series Tractors.

The Select Series Electric Broadcast Spreader for X300/X500/X700 Series Tractors! This Premium Quality 57Kg Electric Broadcast Spreader provides an excellent way to apply loose material including fertilizer, weed killer, sand, lime and de-icer. The 57kg hopper is ideal for medium to large size jobs.

Features include:

- 57kg (with Ice Melt) Capacity.
- Professional Landscaper Design Product.
- Durable Welded, Powder Coat Frame.
- Gear Motor with 5:1 Reducer.
- 90 Calibration Intervals.
- Spread Pattern Directional Control.

246L (7-bu) Dump-From-Seat Hopper

JD Part Number: CPLP47168

Compatibility: Fits the following John Deere X300 Series 2 Bag Material Collection Systems: BM21679 replaced by BUC11233

The 246L Dump-From-Seat Hopper is designed to provide easy grass collection for all John Deere X300 Series tractors equipped with the 2 bag Material Collection System (MCS).

- The hopper eliminates the need to get off of the tractor and empty the bags, as a result it will increase both efficiency and cleanliness in the mowing process.
- The lightweight aluminum body is light weight and easy to handle.
- Conveniently located lever and smooth release and latching system are easily accessed from the tractor seat.
- Because it is engineered specifically for the John Deere Material Collection System, installation is a breeze with simple hand tools.

Not compatible with EZtrak Zero-Turn Mowers or Rear Discharge Mowers.

[Parts Breakdown Available](#)

493L (14-bu) Dump-From-Seat Hopper

JD Part Number: CPLP47170

Compatibility: Fits the following John Deere 3 Bag Material Collection Systems: BM21680, BM20671

The 493L Dump-From-Seat Hopper is designed to simplify grass collection for all John Deere 3 Bag Material Collection System (MCS) on the X500 and X700 Series tractors.

- The hopper eliminates the need to get off of the tractor and empty the bags, as a result it will increase both efficiency and cleanliness in the mowing process.
- The lightweight aluminum body is light weight and easy to handle.
- Conveniently located lever and smooth release and latching system are easily accessed from the tractor seat.
- Because it is engineered specifically for the John Deere Material Collection System, installation is a breeze with simple hand tools.
- Key improvements to the shaft, tailgate and hopper made the hopper twice as resistant to sag and help the tailgate remain tightly closed.
- Additionally, a new guard for the front edge of the tailgate prevents it from becoming caught and bent.

Not compatible with EZtrak Zero-Turn Mowers or Rear Discharge Mowers.

[Parts Breakdown Available](#)

Material Collection

493L (14-bu) Material Collection System Hopper

JD Part Number: BM20671

Compatibility: X465, X475, X485, X495, X575, X585, X595, X700, X720, X724, X728, X740, X744, X748

For 122cm (48"), 137cm (54") and 157cm (62") X700 Signature Series Mowers, the 493L Material Collection System Hopper provides efficient bagging performance, clean operation, and easy-to-empty bags. Useful for grass clippings or leaf collection. For use with X700 Signature Series mowers with 107cm (42") Accel Deep (42A), 122cm (48") Convertible (48C), 122cm (48") Edge Extra (48X), 137cm (54") Edge Extra (54 X), 137cm (54") High Capacity (54 HC), 152cm (60") High Capacity (60 HC), 152cm (60") 7-Iron, and 157cm (62") Convertible (62C) and 157cm (62") Edge Extra (62X) mower decks. Front ballast is recommended for bagging, especially on hills or inclines.

NOTE: Requires Power Flow blower assembly and Power Flow chute. Also requires BM20714, Click-N-Go brackets to install the hopper, if not already installed on the tractor. Front ballast is recommended for bagging, especially on hills or inclines. Not for LX or Select Series™ X300 Tractors.

493L (14-bu) Material Collection System Hopper

JD Part Number: BM21680

Compatibility: GX325, GX335, GX345, GX355, X500, X520, X530, X534, X540, X570, X580, X584, X590

For 122cm (48") and 137cm (54") X500 Multi Terrain, GT, and GX Garden Tractors, the 493L Material Collection System Hopper provides efficient bagging performance, clean operation, and easy-to-empty bags. Useful for grass clippings or leaf collection. For use with X500 Multi Terrain, GT, and GX Garden Tractors with 122cm (48") Convertible (48C), 122cm (48") Edge Extra (48X), 137cm (54") Edge Extra (54 X), 137cm (54") Convertible (54 C) Mower Decks. Front ballast is recommended for bagging, especially on hills or inclines.

NOTE: Requires Power Flow blower and Power Flow chute. Two UC13263 19Kg Quik-Tatch weights are recommended for front ballast.

500L Three Bag Powerflow™ Material Collection System

JD Part Number: BM24510

Compatibility: X584, X590 (All Model Years)

- For Side Discharge Models
- Three Bags
- 500L capacity

Requires Power Flow™ blower & Power Flow™ chute, front ballast is recommended, especially on hills or inclines.

Hitch Bail Adaptor Kit

JD Part Number: CPLP52039

Compatibility: X400 Series; X500 Series; X700 Series

Hitch Bail Conversion Kit for the MC519 Material Collection System.

Material Collection

230L Material Collection System for X100 Side Discharge Models

JD Part Number: BUC10285

Compatibility: X105, X106, X107, X110, X120, X125, X126, X127, X145

230L two bag material collection system and chute for X100 series with 107 cm (42") mower deck. The hopper's two bags provide a generous 230L capacity. Benefit from reduced plugging risk, comfortable, clean operation, and bag filling progress monitoring through a window.

Front ballast is recommended, especially on hills or inclines.

230L Material Collection System

JD Part Number: BG20763

Compatibility: Z525E, Z540R

230 L two bag material collection system for Z500 Series.

Requires Power Flow™ blower & Power Flow™ chute and attachment bar.

Z500 Models Material Collection System

JD Part Number: BG20762

Compatibility: Z515E, Z525E, Z530M, Z535M

High Performance Power Flow™ blower for ZTrak™ with 48A deck.

Requires Power Flow™ Chute BM21681.

229L (6.5-bu) Rear Bagger for 48-in. Deck (100 Series)

JD Part Number: BUC10286

Compatibility: All 100 Series with 122cm (48") decks

Expand the versatility of your 100 series lawn tractor with this easy-to-use 229L Rear Bagger. Includes hopper and chute but not front wheel weights which are recommended when bagging on uneven terrain.

229L (6.5-bu) Hopper & Chute Assembly Material Collection System

JD Part Number: BM24384

Compatibility: Fits Z355E 122cm (48") Edge deck

The hopper design provides an efficient means of collecting grass clippings and leaves.

Kit includes hopper, ballast and chute.

Material Collection

246L (7-bu) Power Flow System

JD Part Number: BM20780

Compatibility: X700 Series*

Provides an efficient means of collecting grass clippings and leaves using the Power Flow material collection system.

***Requires Power Flow blower, chute, and Click-N-Go Brackets. Front ballast recommended.**

NOTE: Not compatible with Cabs

229L (6.5-bu) Hopper & Chute Assembly with Power Flow™ System

JD Part Number: Various, see below

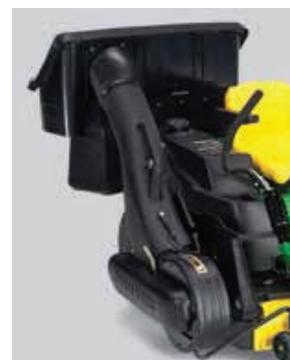

Compatibility: See compatibility information below

Provides an efficient means of collecting leaves and grass clippings using the Power Flow material collection system.

Requires BG20913 Attachment Bar/Bumper.

For Z525E, Z535M, Z540M, 48A/54A

Hopper	BG20757
Chute	BM21681
Power Flow Blower, 48A	BG20758
Power Flow Blower, 54A	BG20759

Power Flow Blower, 48A	BG20768
Power Flow Blower, 54A	BG20769

Material Collection

246L (7-bu) Rear-Bagger System

JD Part Number: BM20982

Compatibility: For 96cm (38") mower

Provides an efficient means of collecting grass clippings and leaves. The hopper design provides great bagging performance, cleaner operation, and easy-to-empty bags.

60 HC High-Performance Power Flow

JD Part Number: BG20727

Compatibility: X700 Signature Series - For model year 2013-2018 (serial number 010,001-070,000) 60 HC Mower Decks (base code 9075M)

The 152cm high-capacity mower uses a high-performance Power Flow blower to collect material into a variety of material collection systems.

Key features:

- Blower is hinged to provide easy installation.
- Blower is easy to swing out for easy cleanout.
- Blower fan runs in a clockwise direction (viewed from the right side) to efficiently move material up the chute.

The Power Flow blower works well with either the standard mower blades or mulching blades.

137cm (54") HP Power Flow Blower Assembly

JD Part Number: BG20769

Compatibility: ZTrak Z535R and Z540R

Z515E and Z530M Material Collection System

Material Collection

Two-bag, 229L (6.5-bu) Hopper, EZTrak™

JD Part Number: BM23634

Compatibility: For EZtrak™, the 229L (6.5-bu) rear bagger efficiently collects material from the mower deck:

- For an EZtrak™ Z225 or Z255, a chute (ordered separately) moves material from the mower deck to the 2-bag hopper.
- For an EZtrak Z425, Z435, Z445, Z625, Z645, or Z655, a Power Flow™ blower (ordered separately) on the end of the mower deck moves material up the chute (ordered separately) and into the hopper.

The hopper design provides efficient bagging performance, clean operation, and easy-to-empty bags.

- Two durable bags give a generous, 229L capacity.
- The bags lift out for easy emptying.
- Efficient chute provides a smooth flow of material to reduce the chance of plugging.
- Standard mower blades are used for bagging.
- Air exhaust duct directs air from the hopper back and toward the ground for clean operation.
- Convenient latch makes opening and closing the hopper easy.
- No-tools installation makes the hopper easy to install and remove. No tools are required after initial installation.
- Two 7Kg weights are included for installation on the front of the vehicle to help counter-balance the weight of the hopper.

Two-bag, 229L (6.5-bu) Hopper, EZTrak™

JD Part Number: BM24286

Compatibility: Fits EZtrak™ Z235 model only

The 229L (6.5-bu) rear bagger efficiently collects material from the mower deck:

- Attachment includes hopper, chute, and ballast needed for the EZtrak™ Z235

The hopper design provides efficient bagging performance, clean operation, and easy-to-empty bags:

- Two durable bags give a generous, 229L capacity.
- The bags lift out for easy emptying.
- Efficient chute provides a smooth flow of material to reduce the chance of plugging.
- Standard mower blades are used for bagging.
- Air exhaust duct directs air from the hopper back and toward the ground for clean operation.
- Convenient latch makes opening and closing the hopper easy.
- No-tools installation makes the hopper easy to install and remove. No tools are required after initial installation.
- Ballast is included for installation on the front of the vehicle to help counterbalance the weight of the hopper.

Material Collection

Rear bagger Chute for 42X Mowers, Select Series Tractors

JD Part Number: BG20766

Compatibility: BG20766 rear bagger chute replaces BM22594, BM22300, and BM21678 rear bagger chutes for use on 107cm Edge Xtra Mower Decks used on Select Series™ Tractors.

The rear bagger chute is required to use the 2-bag, 247L rear bagger. The chute includes a convenient handle and a fill indicator that tells the operator when the bags are getting full. BG20766 chute has a two-piece design so it can be easily installed at the mower deck, without the rear of the chute being encumbered by the hopper.

A front bayonet that aligns with and slides into a hole in the mower front wheel bracket is included. The chute is securely retained in place by front and rear bungee cords:

- BG20766 can be used in all applications where BM22594, BM22300, or BM21678 was used.
- Mowers shipped with 2006 model year tractors require a 12.7 mm hole drilled in the mower-wheel bracket.
- The instruction sheet for BG20766 rear bagger chute includes a template for locating the hole in the mower-wheel bracket.

Two-bag, 229L (6.5-bu) Bagger for 107cm (42") Accel Deep™ Mower Deck (42A)

JD Part Number: BG20755

Compatibility: Fits model year 2016-2022 ZTrak Z300s.

The 229L rear bagger efficiently collects material from the mower deck.

Attachment includes hopper, chute, ballast, attachment bar, hitch, and blades needed for ZTrak™ Z300 Series Mowers with 42-in. Accel Deep™ Mower Deck.

The hopper design provides efficient bagging performance, clean operation, and easy-to-empty bags.

- Two durable bags give a generous, 229L capacity. The bags lift out for easy emptying.
- Efficient chute provides a smooth flow of material to reduce the chance of plugging.
- High lift bagging blades are included with the rear bagger. They provide optimum performance when bagging in difficult conditions, such as when the grass is moist, dense, or long.
- High-lift bagging blades also work well when side discharging material.
- Air exhaust duct directs air from the hopper back and toward the ground for clean operation.
- Convenient latch makes opening and closing the hopper easy.
- No-tools installation makes the hopper easy to install and remove. No tools are required after initial installation.
- Ballast is included for installation on the front of the vehicle to help counterbalance the weight of the hopper.
- An easy to install or remove chute is included.

Material Collection

246L (7-bu) Material Collection System

JD Part Number: BM20454

Compatibility: LT150, LT155, LT160 Series

Expand the versatility of your 100 series lawn tractor with this easy-to-use 247L Rear Bagger. Includes hopper and chute, but not front wheel weights which are recommended when bagging on uneven terrain.

Two-bag, 247L (7-bu) Power Flow™ Collection System

JD Part Number: BM20455

Compatibility: For LX172-LX188 and LX255, LX266, LX277, LX277 AWS, LX280 AWS, and LX288 Lawn Tractors

Requires appropriate rear bagger chute or blower assembly and Power Flow chute. LX277 AWS and LX280 AWS require BM19797 adapter kit.

Two-bag, 247L (7-bu) Power Flow™ Collection System

JD Part Number: BM20456

Compatibility: For GT, GX, and X300 Series Garden Tractors

The 7-bu (247-L) Hopper provides an efficient means for picking up grass clippings and leaves. The hopper design has modern styling, great bagging performance, cleaner operation, and easy-to-empty bags.

The 247L (7-bu) material collection system features:

- 247L (7-bu) capacity.
- Easy-to-attach lower chute (ordered separately).
- Air exhaust duct.
- Convenient spring latch.
- Airflow fill indicator.
- Handle-on chute.
- Quik-Tatch™ mounting system.
- Sealed hopper top.
- Available loose-knit bags.

Bagger, Chute Kit

JD Part Number: TCB11234

Compatibility: Z920M, Z920R, Z930M, Z930R, Z950R, Z960R Series Mowers

ZTrak™ Mower Bagger Chute Assembly

JD Part Number: TCB11079

Compatibility: ZTrak™ 737, 757, 997 Series Mowers

Material Collection

62C/62X High-Performance Power Flow™ Blower

JD Part Number: BM21496

Compatibility: Used with MC519 Material Collection System

62D OnRamp compatibility requires ordering a belt-shield kit.

60D High-Performance Power Flow™ Blower

JD Part Number: BM24514

Compatibility: X700, 1023E, 1025R, 1026R, and model year 2017 and newer 2025R Tractors). Not compatible with cabs on X700.

54C/54X/54D High Performance Power Flow™

JD Part Number: BM22697

Compatibility: For model year 2019 and older 1023E, 1025R, and 1026R Tractors.

This bundle replaces BM21495 high-performance Power Flow (54C and 54D OnRamp Mowers). 54D OnRamp compatibility requires ordering a belt-shield kit.

ZTrak™ Mower Power Flow 107cm (42") Blower Attachment

JD Part Number: BM21871

Compatibility: Z425, Z435, Z445 ZTrak™ Series Mowers

HP Power Flow™ Blower Assembly for 54C & 54X Mower

JD Part Number: BM21873

Compatibility: Z425, Z435, Z445 ZTrak™ Series Mowers

HP Power Flow™ Blower Assembly

JD Part Number: BM22144

Compatibility: For use with model year 2007 X320, X324, and the model X500 M-T Tractor. Also for use with SKU22194 (48X with non-rotatable anti-scalp wheels) cartoned deck.

A high-performance Power Flow blower assembly is used with the 122cm Mower:

- Blower is hinged to provide easy installation.
- Blower is easy to swing out for easy cleanout.
- The blower fan runs in a clockwise direction (viewed from the right side) to efficiently move material up the chute.

The high-performance blower will work well with either the standard mower blades or the mulching blades.

Material Collection

Two-bag 247L Power Flow™ Collection System

JD Part Number: BM22696

Compatibility: For 48C and 48X Mower Decks. For use with model year 2006 X320, X324, model X500 M-T Tractor, model years 2008 and later X320, X324, X500, and X360. Also for use with SKU21895 (48X with rotatable anti-scalp wheels) cartoned deck.

NOTE: When used on SST, LX, GT, or GX Tractors, also order one M147451 shield-mounting wireform and one AM131219 front-mounting bracket.

NOTE: When used on X400/X500 HDGT or X700 Tractors with 48C/48X Deck (serial numbers -050589), also order a BM20976 48C/48X High-Performance Blower assembly adapter kit (discontinued) or one each of 34M7119 spring pin, M145850 mower wheel pin, and M147235 pin, bent.

A high-performance Power Flow blower assembly is used with the 122cm Mower:

- Blower is hinged to provide easy installation.
- Blower is easy to swing out for easy cleanout.
- The blower fan runs in a clockwise direction (viewed from the right side) to efficiently move material up the chute.

The high-performance blower will work well with either the standard mower blades or the mulching blades.

HP Power Flow™ 122cm (48") Blower Assembly

JD Part Number: BG20748

Compatibility: 122cm (48") Accel Deep™ Mower

The high-performance (HP) Power Flow blower assembly for the 122cm Accel Deep™ Mower is used with the hopper and chute to provide a very effective material collection system.

A hopper and chute must be ordered separately to complete this material collection system.

HP Power Flow™ 137cm (54") Blower Assembly

JD Part Number: BG20749

Compatibility: 137cm (54") Accel Deep™ Mower

The high-performance (HP) Power Flow blower assembly for the 137cm Accel Deep™ Mower is used with the hopper and chute to provide a very effective material collection system.

A hopper and chute must be ordered separately to complete this material collection system.

Material Collection

HP Power Flow™ 122cm (48") Blower Assembly

JD Part Number: BG20859

Compatibility: 122cm (48") Accel Deep™ Mower

The high-performance (HP) Power Flow blower assembly for the 122cm Accel Deep™ Mower is used with the hopper and chute to provide a very effective material collection system.

A hopper and chute must be ordered separately to complete this material collection system.

137cm (54") High-Performance Power Flow™ System

JD Part Number: BG20867

Compatibility: For model year 2013-2018 54 HC Mower Decks

The 137cm (54") high-capacity mower uses a high-performance Power Flow blower to collect material into a variety of material collection systems.

Key features:

- Blower is hinged to provide easy installation.
- Blower is easy to swing out for easy cleanout.
- Blower fan runs in a clockwise direction (viewed from the right side) to efficiently move material up the chute.

The Power Flow blower works well with either the standard mower blades or the mulching blades.

Blower Attachment Material Collection System

JD Part Number: BG20768

Compatibility: Fits Z540R and Z545R models only

Material Collection System Blowers ensure efficient material flow to hopper. Whether collecting grass clippings or for fall leaf clean up, the use of a blower will result in a beautiful debris free yard. Required for most decks 122cm (48-inches) or larger.

A bumper, hopper and chute must be ordered separately to complete this material collection system.

102cm (40") Power Flow™ Blower Assembly

JD Part Number: BM19090

Compatibility: 325, 335, 345, 355D, LX200, GT225, GT235, GT235E, GT245, LT170 Series Mowers

Material Collection

Blower Attachment

JD Part Number: BG20862

Compatibility: X340, X590, X700, X720, X724, X728, X729, X740, X744, X748, X749, X750, X754, X758 Series Mowers

247L (7-bu) Power Flow™ Chute

JD Part Number: BM20988

Compatibility: BM20988 7-bu Power Flow Chute replaces BM18851 in all applications where BM18851 was used. It is only used for the 7-bu Power Flow.

Power Flow chute consists of a discharge chute and attaching hardware.

Grass Bag Chute (with Power Flow™)

JD Part Number: BM19695

Compatibility: Used with MC519 Material Collection System

Blower Attachment, Z7 122cm (48") Mower Deck

JD Part Number: BUC10177

Compatibility: ZTrak™ Z720E, Z735M, Z740R Series Mowers

This blower attachment, in conjunction with the hopper and chute, will provide 229L material collection system capability.

Blower Attachment, Z7 137cm (54") Mower Deck

JD Part Number: BUC10178

Compatibility: ZTrak™ Z720E, Z730M, Z735M, Z740R Series Mowers

This blower attachment, in conjunction with the hopper and chute, will provide 229L material collection system capability.

Blower Attachment, Z7 152cm (60") Mower Deck

JD Part Number: BUC10179

Compatibility: ZTrak™ Z720E, Z730M, Z735E, Z735M, Z740R Series Mowers

This blower attachment, in conjunction with the hopper and chute, will provide 229L material collection system capability.

ZTrak™ Mower 3-Bag MCS Blower Attachment

JD Part Number: TCB11690

Compatibility: ZTrak™ 737, 757, 777, 797, 997, Z915B, Z915E, Z920M, Z920R, Z925M, Z930M, Z930R, Z945M, Z950M, Z950R, Z955M, Z960M, Z960R, Z970R, Z994R, Z997R Series Mowers.

Sweepers

Tow-Behind Sweeper 107cm (42")

JD Part Number: CPLPSTS42JD

Sweeping Path Width: 107cm

Compatibility: Compatible with most mowers with a hitch pin

Compatible with CPLP42108 Dethatcher Kit for one-pass dethatching and material pickup.

- Full-length Windscreen – ensures that all material is retained and nothing is thrown over the top of the hamper
- Dump Cord with T-handle – easier to grip with or without gloves, with adhesive Velcro strip to secure when not in use.

The CPLPSTS42JD Tow Behind Lawn Sweeper has a 107cm wide sweeping path with a high-capacity 0.68m³ hamper. The 5:1 gear ratio results in higher tip velocity, generating more force to lift debris up off the ground and into the hamper.

Consistent brush to ground contact prevents the unit from “skipping” and leaving leaves and grass clippings on the lawn. This is accomplished by reducing Tip Lift—the time and distance that the brushes lift off the surface of the lawn between strokes. Incorporating six brush sections, brush to ground contact is significantly improved over traditional 4-brush designs. The patented self-storing feature allows the unit to be stored upright to minimise required storage space.

[Parts Breakdown Available](#)

Double Helix Brush Sweeper 137cm (54")

JD Part Number: CPLP83253

Sweeping Path Width: 107cm

Compatibility: Compatible with most mowers with a hitch pin

With its industry-leading width and max capacity, the John Deere 137cm Sweeper leads the way when it comes to easy yard clean-up.

An impressive 0.88m³ hamper capacity well exceeds the capacity of a bagger, and the 137cm working width means less passes to get the job done. The full-length windscreen ensures material is retained when in use, while the dump-cord with T-handle enables you to empty the hamper right from the tractor seat.

Featuring an innovative Patent-Pending double-helix brush design, the CPLP83253 sweeps up debris with unmatched ease; everything from grass clippings to pine needles, to leaves, and more!

The largest sweeper in the John Deere line-up also features a 5:1 gear ratio, resulting in a higher tip velocity and generating more force to lift debris up off the ground and into the hamper.

Last, when your yard clean-up is complete, the patented self-storing feature allows the unit to be stored upright to minimise required storage space. Get more done in less time with the most efficient sweeper on the market.

Material Handling

Material Handling

Single Bucket Holder - Cargo Mount

JD Part Number: CPLPJD100

Compatibility

Fits all tractors equipped with Cargo Mounts except 4-wheel steer models. Compatible with 100 series, L100 series, S240, G110 and Select Series MY15 and prior. Not compatible with MY16 Select Series.

Keep the Most Useful Garden Tools within Reach: the 5 Gallon Bucket!

Transporting mulch, plants or yard waste just got easier with the Cargo Mount Single Bucket Holder. Just slip the holder bracket into the rear Cargo mounts for a NO TOOLS mount. Designed for use with any standard 18.9L bucket. Its all steel construction enables it to carry up to 18 Kg of material.

The bucket holders come with full color packaging, just place them on the showroom floor and they sell themselves.

Must be ordered in quantities of 4

122cm (48") Loader Bucket

Utility Carts

8Y Utility Cart

JD Part Number: CPLP22755

Compatibility: Compatible with most mowers with a hitch pin

Load Limit: 136kg

Box Capacity: 0.23m³

Versatility for any job! If you need a cart that can help with a variety of tasks around your property, the 8Y convertible cart is a great fit. Attach it to your tractor with the universal hitch for hauling heavier loads long distances, then convert it to a push cart when you need to move material around in tighter spaces.

- Durable one-piece poly cleans up easily, with 136kg, 0.23m³ capacity
- Unique convertible hitch changes cart from tow model to push wheelbarrow without tools
- Wheelbarrow type design is stable and easy to move
- Universal hitch attached to any tractor quickly and easily
- Knobby tread tyres roll easily over the lawn

Integral Hitch - X500

JD Part Number: CPLP31357

Compatibility: X500 Series 2006-2015 X530, X534, X540, X590 L&G Tract 2016+ X570, X580, X584, and X590

Integral Hitch permits the use of certain rear-mounted equipment such as plow, disk harrow and cultivator.

- One pin and spring clip is used for installation or removal.

Power Integral Hitch

JD Part Number: CPLP66661

Compatibility: X500, X530, X534, X540, X570, X580, X584, and X590 Tractors

- Lifts/lowers using tractor hydraulics
- Sleeve hitch will accept cultivator, disk harrow, plow, and box scraper/ blade attachments
- 19Kg Quik-Tatch™ suitcase weights can be installed for ballast when using Integral Hitch

Rear Blade - 107cm (42") Sleeve Hitch

JD Part Number: CPLPBB56

The 106cm Rear Blade is just the right size to handle any grading or backfilling task you might have. Made tough and durable to withstand whatever you give it.

- The Rear Blade has a 106cm working width.
- The blade is made of heavy-duty carbon steel construction that angles and locks 30 degrees in either direction or rotates 180 degrees for pushing instead of pulling.
- Rear Blade easily hooks-up to sleeve hitch.

***Requires a sleeve hitch.**

Box Scraper - 96cm (38") Sleeve Hitch

JD Part Number: CPLPBS38

The 96cm Box Scraper is really two products in one. Simply remove the side plates and scarifier bar and you've got a Rear Blade.

- The Box Scraper has a 96cm working width and is made of heavy-duty carbon steel construction.
- The blade angles and locks 30 degrees in either direction for pushing instead of pulling; Scarifier bar can be removed or locked into non-working position; converts to blade-only use; weight bracket included.
- Easy hook-up to sleeve hitch.

***Requires sleeve hitch.**

Ground-Engaging

Cultivator - Sleeve Hitch

JD Part Number: CPLPCC55

Compatibility: X500 Series

Remove weeds and loosen soil between newly planted rows with the Cultivator. The Cultivator adjusts 45cm to 102cm with an easy hook-up to a sleeve hitch.

***Requires integral hitch.**

Disc Harrow - Sleeve Hitch

JD Part Number: CPLPDD55

The Disk Harrow is used to break up chunky, plowed ground and prepare seedbeds with uniform, pulverized soil.

- Disk angles and spacing can be adjusted according to conditions at 10, 15 or 20 degrees.
- Add extra weight to the heavy steel tray for those tough soil conditions.
- Easy hook-up to sleeve hitch.

***Requires a sleeve hitch.**

Moldboard Plow - Sleeve Hitch

JD Part Number: CPLPPP510

The rolling Coulter Blade cuts through the soil and the plowshare digs the furrow. Then the moldboard gently turns under old vegetation to make way for new planting.

- The Sleeve Hitch Moldboard Plow has a 25cm width of cut and furrow width of 25cm.
- No tools required to make depth adjustments.
- Easy hook-up to sleeve hitch.

***Requires a sleeve hitch.**

Ground-Engaging

102cm (40") Tractor Shovel

JD Part Number: CPLP63767

Compatibility: X300, X500 Tractors

The 102cm (40") Tractor Shovel has been updated to fit model year 2016+ X300 and X500 tractors while also maintaining its compatibility with the 2015 and earlier X300 and X500 tractors. Its Patent Pending lift mechanism utilizes a high power electric actuator which provides lift, lower, dump and down force. The Tractor Shovel takes the back breaking labor out of jobs like mulching, spreading gravel, ground grading and more! It is precision fit to the tractor's existing frame holes. After initial installation, it is a NO TOOLS mount.

Key Features

- 0.048m³ capacity.
- 68Kg load capacity.
- Down-force allows for ground engaging work.
- Blade access when shovel is in the up position, can be used to doze, scrape, or level material.
- Heavy duty steel construction.
- Convenient dash mounted control switch with clearly marked switch overlay.
- Can be removed in 10 minutes or less after initial installation.
- Shovel Depth: 28cm, Lift Height: 10-15cm (based on tractor model).

[Parts Breakdown Available](#)

137cm (54") Tractor Shovel

JD Part Number: CPLP54000

Compatibility: X700 Series Tractors equipped with a 137cm blade and dual hydraulic Quick Hitch

Convert the 137cm Blade into a Multi-Function Workhorse with the Tractor Shovel! The 137cm Tractor Shovel easily attaches to the X700 Series Tractors equipped with a 137cm blade and dual hydraulic Quick Hitch. The 137cm Tractor Shovel takes the back breaking labor out of jobs like mulching, spreading gravel, ground grading and more! Operation is easy because it uses the tractor's existing hydraulic controls. The angling cylinder is repositioned to open and close the shovel. Initial installation requires common hand tools, after which it is a NO TOOLS mount.

Key Features

- 0.06m³ capacity.
- 90Kg load capacity.
- Down-force allows for ground engaging work.
- Blade can be used to doze, scrape, or level material with the Tractor Shovel installed.
- Unique shovel design empties material completely.
- Utilizes front blade angling cylinder to raise the shovel when emptying materials.
- Cutting edge is 0.95cm x 7.6cm abrasion resistant material.
- Two layers of 0.3cm thick steel form the bottom of the shovel and provide upper and lower surfaces to capture the blade edge securely.
- Can be removed in 10 minutes or less after initial installation.
- Shovel Depth: 30cm, Lift Height: 20-30cm (based on tractor model).
- Two-year limited warranty on part.

Remote Angling Kit - 112cm (44") Blades

JD Part Number: CPLP33712

The Remote Angling Kit is compatible with your Select Series 44 in John Deere Front Blade and most other John Deere Tractors equipped with a 112cm front blade (additional Deere part needed to fit non-Select Series Models).

The kit is easy to install and utilises a 3-position spring loaded mechanism that automatically lock into place when the blade is in the proper position. A simple twist of the conveniently mounted control handle and easy push or pull angles the blade increasing your efficiency by elimination the need to stop and reposition the blade angle. Perfect for plowing, dozing and ground leveling.

Expand the possibilities of your tractor and get more done!

Features

- Remote angling from the seat of your tractor.
- Heavy duty powder coated steel construction.
- Mounts using simple hand tools.

Front Blade

JD Part Number: BUC11657

Compatibility: 100 Series Tractors

- **Durable:** The blade is constructed for good performance and long life: Blade surface is curved to roll rather than push material, which requires less power and increased blade capacity. Bolt-on, replaceable cutting edge takes most of the wear to greatly extend the useful life of the blade.
- **Convenient:** For operator convenience, the blade comes with standard equipment for controlling it from the tractor's seat: Blade can be angled left/right or used in the straight-ahead position.
- **Additional Information:** Requires two UC13263 suitcase weights and one BG20627 rear weight bracket. Tire chains are recommended for additional traction. Remaining inventory of yellow-painted BG20943 front blade may be available to order through parts.
- The front blade is excellent for pushing light snow or other loose material.

Comfort

Comfort

Premium Control Arms

JD Part Number: BUC10040

Compatibility: Fits all Z300 Series and Z500 Series Residential ZTrak mowers

Add even more comfort to your mowing with the premium control arms.

Boarding Step for ZTrak Z300 Series

JD Part Number: CPLP66653

Compatibility: 2016 - Current ZTrak Z300 Series

Step Up to Easier Boarding - Boarding Steps make mounting and dismounting ZTrak™ and former EZTrak™ Zero-Turn Mowers easier. Constructed from steel with a durable black powder-coated finish, these steps mount to the mower's left frame rail with a clamp and four (4) bolts (included). Each step has 3M™ Safety-Walk™ slip-resistant conformable tape adhered to the top to help minimise slippage.

- Assists with mounting and dismounting - by providing operators with a solution that eliminates the need to step on or over the mower deck.
- Simple installation - attaches to the left frame rail in minutes using the provided clamp and hardware.
- Powder-coated steel construction - offers years of rust-free use and easily supports the weight of an operator.
- Slip-resistant tape - adhered to the top of the step to prevent slippage.

Not compatible with BM24485 Ballast

Isolated Seat Kit

JD Part Number: BTC10907

Compatibility: For model year 2015 and newer gas Z900 ZTrak Mowers with base seats that have no suspension and a serial number break of (30,000-).

The field-installed isolated seat kit for the gas Z900 ZTrak Mowers provides operators with an improved ride and reduces operator fatigue when mowing for prolonged periods of time.

This is a dealer-installed kit that converts a base seat with no suspension to an isolated seat.

Fenders

Fenders

Front Fender Kit

JD Part Number: BM21536

Compatibility: X700, X720, X740 (Not compatible with-48 in. mower deck.)

Front "Special-Edition" fenders are available (except for X724 and X744 models) for protection from mud and debris. Fenders and mounting parts for both front wheels.

Front Fender Kit

JD Part Number: BM22717

Compatibility: X728, X729, X748, X749 (Full-time 4WD)

Front "Special-Edition" fenders are available (except for X724 and X744 models) for protection from mud and debris. Fenders and mounting parts for both front wheels.

Front Fender Kit

JD Part Number: BLV10945

Compatibility: 2025R

Help to protect against unwanted dirt and mud on cab glass or operator station.

Front Fender Kit

JD Part Number: BLV10999

Compatibility: 2036R

Help to protect against unwanted dirt and mud on cab glass or operator station.

Front Fender Kit (Not for 2WD-4WS Tractors)

JD Part Number: BM24429

Compatibility: X710, X730, X750

Front fenders help keep the mud and debris from being thrown on the mower deck, tractor, and operator.

Features include:

- The sleek and sporty-looking fenders add styling.
- The fenders really work well for keeping the mower deck clean, preventing the typical grass buildup.
- Fenders help protect the operator from mud and debris.

The kits include fenders and mounting parts for both front wheels.

Fender Kit

JD Part Number: BUC10893

Compatibility: 1550, 1570, 1575, 1580, 1585 TerrainCut Front Mowers

Guards

Guards

Front Brushguard Kit

JD Part Number: BM20880

Compatibility: X465, X485, X495, X575, X585, X595, X728, X748 Series Tractors

Features Include:

- The brush guard kit mounts to the front frame of the tractor quickly without tools.
- Brush guard kit will easily tilt forward to enable the customer to raise the hood for engine compartment access.
- The brush guard is standard equipment on Special Edition Tractors.
- The brush guard must be removed before installing front-mounted implements, including the 45 Loader.

- Interior lining and integrated muffler heat shield. Heavy duty fabric won't shrink or stretch and is coated for maximum water resistance and repellency.
- EasyOn™ split back for fast fitting and easy access after installation.
- Handy storage pocket reverses into an attractive storage case.

Must be purchased in multiples of 3

Weights

13.6Kg Front Wheel Weight

JD Part Number: BM17964

Compatibility: Not for 4WD tractors or special-edition tractors.

One 13.6 Kg cast-iron weight may be installed on each front wheel for additional stability when operating on hillsides or with heavy rear equipment.

- Mounting may require drilling two holes in the wheel rim.
- BM17978 mounting hardware kit is required for each weight.

Front wheel weights are not available for special-edition tractors because the styled front wheel design does not have appropriate holes for mounting the wheel weights and no adapter is available.

Cast Iron Wheel Weights

JD Part Number: Various, see below

Compatibility: For compatibility, see below

Weights for front wheels are recommended with rear grass baggers on slopes and may be required with heavy rear-mounted equipment. Rear weights are recommended for additional traction, especially with front blades, and tillers. Some applications require drilling two holes in wheel rim to mount the weight. Contact dealer for the right combination of weights and mounting hardware for your mower and attachments.

Wheel Weight Mounting Hardware	BM17978
Wheel Weight Mounting Hardware Kit	BM17985

Ballast Box

JD Part Number: BW14313

Compatibility: For Category 1, 3-Point Hitch - X700 Series

Allows weight to be added to the rear of a tractor for improved traction and stability when using the 45 Loader (X700 Ultimate Series Tractors only) or front-mounted equipment.

Note: Requires Cat. 1, 3-Point Hitch.

Ballast Box

JD Part Number: BM20715

Compatibility: X400/X500 HDGT's, X700's

The ballast box is available as a field installed attachment to allow adding weight to the rear of a tractor for improved traction and stability when using the 45 Loader or a front-mounted implement.

Proper ballast ensures:

- A durable tractor-loader combination by preventing overload conditions on drive components.
- Productivity is improved because power is being transferred to the ground correctly.
- Stability is maintained to ensure a safer operating unit.

Note: Requires BM20714 Click-N-Go brackets.

Weights

15.4Kg Cast Iron Front Wheel Weight

JD Part Number: BUC10724

Compatibility: 102, 105, 115, 125, 135, 170, 175, 180, 185, D100, D105, D110, D120, D130, D140, D150, D155, E100, E110, E120, E130, E140, E150, E160, F910, F930, GT242, GT262, GT275, L100, L105, L107, L108, L110, L111, L118, LA100, LA105, LA110, LA115, LA120, LA125, LA130, LA135, LA140, LA145, LA150, LA155, LT133, LT150, LT155, LT160, LT166, LT170, LT180, LTR155, LTR166, LTR180, LX172, LX173, LX175, LX178, LX186, LX18, LX280, S100, S110, S120, S130, S140, S160, S220, S240, STX30, STX38, STX46, X105, X106, X107, X110, X120, X125, X140, X145, X165, X330, X350, X350R, X354, X370, X384, X394

Includes one wheel weight.

Requires one BM17978 mounting hardware.

Plastic Rear Wheel Weights

JD Part Number: BM19123

Compatibility: E170, E180, L120, LT133, LT150, LT155, LT160, LT166, LT170, LT180, LTR155, LTR166, LTR180, S170, S180, SABRE 2048HV, X350R Lawn Tractors/Mowers.

One 14.1 Kg plastic-shell rear wheel weight may be installed on each rear wheel to provide extra traction and stability.

Best Practice

In order to sell more turf attachments, please use the available tools to optimise your showrooms and entice customers to expand the possibilities of their turf equipment. Add More stickers are available to order from the ANZDC (**Part #CP8312**). These stickers when attached to attachments in the sales showroom will encourage sales with the purchase of equipment. This reference manual can also be used to improve product knowledge, which will in turn, lead to more sales.

Welcome to SIMON

(Showroom Inventory and Merchandising Optimization Network)

Utilise the SIMON (Showroom Inventory and Merchandising Optimization Network) platform for showroom process optimisation, to order displays, and many more useful tools, available at your fingertips.

If you have any questions about the content included in this reference manual, please contact 23MarketingParts@johndeere.com
