

# APPLICATIONS NOW OPEN!

Applications are now open for the 2022 intake of the Emmetts TechSTAR Apprenticeship Program.

Opportunities are available across our branches in Victoria and South Australia, so if you're looking to build an exciting career as an ag technician full of variety, working with cutting edge technology and the biggest brands in agricultural machinery, apply now!

Once selected to be part of the Emmetts TechSTAR Apprenticeship Program, you will actively learn and engage in the diesel mechanical trade through on and off the job training. You will complete a Certificate III in Agricultural Mechanical Technology and be part of the Emmetts Accelerate Program in Horsham, Victoria twice a year with other apprentices across the group.

As a TechSTAR apprentice, you will gain a wide variety of experience both in the workshop and out in the field - all with the guidance and support of our knowledgeable service team.

We will ensure that each apprentice is equipped with the skills needed to complete each and every job safely and to the highest standard.

Not sure if an apprenticeship is for you? For those wishing to give the trade (and Emmetts) a trial run, we are offering casual positions to future apprentices over the summer break. If this is of interest, please email [hr@emmetts.com.au](mailto:hr@emmetts.com.au).

# LET'S TALK!

For more information, contact Beck Rickell (Recruitment Advisor) on 0436 835 582 or via email [careers@emmetts.com.au](mailto:careers@emmetts.com.au)

## ABOUT US

Established in 1957, Emmetts are a leading multi-franchise agricultural equipment group and one of Australia's largest John Deere dealers. With 11 branches covering the broad-acre, viticulture, horticulture and grounds care farming sectors of Victoria and South Australia, we are highly regarded in the farming community and believe the key to our success is the people who work for us!

Our team has a genuine passion for developing integrated farming solutions that help the Australian farming industry be the best it can be. From sales and service to technology, parts, marketing and management, everyone plays an integral part in customer satisfaction.

To get a feel for our culture and standing within the agriculture industry, head to our website or follow us on social media.
